*"I started my career planning small-scale plant as a junior engineer. Thanks to the targeted mentoring I received in the team and the practical experience I gained, I was soon able to manage large-scale projects in Austria and abroad. Now I am deputy head of our department. I love working in a large committed team for many different customers worldwide."*

Thomas Wipfler, 30 Jahre, Deputy Head of Mechanical Engineering

*"ZETA made the perfect start into working life a reality for me! I wanted to combine technology and business and this is precisely what I am now doing. ZETA opens up new perspectives and supports me in my part-time university studies. It couldn't be any better!"*
